Discovery: The Three Camps

Every DME practice falls into one of three camps. Identifying yours early lets us tailor the demo and skip what doesn't apply.

Camp A — Missing Intake Calls

Patients call, get voicemail, hang up — and call the next supplier. Revenue walks out the door before your team even knows they called.

Camp B — Drowning in Manual Work

Resupply outreach, prior auth follow-up, delivery confirmation — your staff is buried in repetitive phone calls that should be automated.

Camp C — Full Phone Replacement

Looking to replace your entire front-line phone system. We flag this early as out of scope and redirect to the right solution.

What DMEDesk Does

Voice-First AI Receptionist — Built Exclusively for DMEPOS

DMEDesk™ answers, triages, and manages intake 24/7 with real-time conversations at sub-second latency — so patients never experience hold time.

→ **Two-way integration** with your management system

→ **HIPAA-secure** BAAs across the full stack

→ **Inbound AND outbound** — zero hold time, always on

→ **Three deployment models:** After-Hours Only | Hybrid
| Front-Line

Outbound Automation

DMEDesk doesn't just answer calls it proactively reaches out to patients and providers, eliminating the manual follow-up burden on your staff.

Resupply Eligibility

Automated calls to verify patient resupply needs before orders lapse.

Prior Auth Follow-Up

Chases pending authorizations so your team doesn't have to.

Delivery Confirmation

Confirms receipt of equipment directly with patients.

Missing Documentation

Follows up on incomplete paperwork before it becomes a compliance issue.

Patient Notifications

Timely updates on orders, appointments, and changes.

Review Solicitation

Requests reviews from satisfied patients automatically.

Lapsed Patient Re-Engagement

Reaches out to inactive patients to restart care.

Intake Form Delivery

Sends intake forms to patients via call or text link.

"A live call that verifies — not a static text that assumes."

How Integration Works

DMEDesk connects directly to your practice management system — pulling patient data in real time and writing back orders, tasks, and notes automatically. Zero staff touches. Always the source of truth.

Caller Identified

Record Pulled

Real-Time Conversation

Orders & Notes Written

From first ring to final note, the entire interaction is captured and synced — your team picks up where the AI left off, fully informed.

Dashboard & Configuration

Full visibility into every interaction, with the flexibility to configure DMEDesk around your existing workflows.

Call Log + Transcripts

Every call recorded and searchable — full audit trail at your fingertips.

AI-Generated Summaries

Instant call summaries written by AI so staff can act fast.

Auto-Created Tasks

Tasks generated from call outcomes and assigned automatically.

Patient Records & Sync Status

Live sync indicator shows real-time connection to your PMS.

Insurance List Config

Manage payer rules and routing directly from the dashboard.

Feature Toggles

Turn off anything you already handle DMEDesk adapts to you.

Implementation Road Map

From demo to go-live in as little as 2–3 weeks. Every step is white-glove, included, and designed to get your team confident fast.

Objection Busters

We've heard it all. Here are the most common concerns — and exactly how DMEDesk addresses each one.

The Concern

- "Patients hate robots"
- "We have reminders already"
- "What about emergencies?"
- "How long to go live?"
- "What if we cancel?"

The Reality

- **Hybrid model available** patients currently get voicemail; DMEDesk is an upgrade, not a downgrade.
- **Toggle overlapping features off** DMEDesk adapts to what you already have.
- **Life-sustaining equipment calls** route to your on-call staff immediately.
- **2–3 weeks** from onboarding to full go-live.
- **Month-to-month, 15-day notice, no cancellation fee.**

What Do You Think?

The next step is simple: a white-glove onboarding session included at no cost. No long-term contract. No risk.

White-Glove Onboarding

Included. No extra cost. We guide your team every step of the way.

30-Day Money-Back Guarantee

Try it risk-free. If it's not the right fit, you're covered.

No Long-Term Contract

Month-to-month flexibility. 15-day notice. Zero cancellation fees.
